

FACT SHEET

TOMRA was founded on an innovation in 1972 that began with the design, manufacturing and sale of reverse vending machines (RVMs) for automated collection of used beverage containers. Today TOMRA provides technology-led solutions that enable the circular economy with advanced collection and sorting systems that optimize resource recovery and minimize waste in the food, recycling and mining industries. TOMRA has more than ~100,000 installations in over 80 markets worldwide and had total revenues of ~9.3 billion NOK in 2019. The Group has a workforce of some ~4,500 employees globally and is publicly listed on the Oslo Stock Exchange (OSE: TOM). For further information about TOMRA, please see www.tomra.com

NEW in 2020

PRODUCT LAUNCHES

[TOMRA R1](#)

Multi-feed reverse vending solution gives shoppers more attractive, convenient recycling experience

[New AUTOSORT, SPEED AIR, & CYBOT](#)

Latest advanced sorting solutions to meet demand for faster, more efficient and smarter material sorting.

[Upgraded X-TRACT](#)

Units for magnesium removal, a ground-breaking x-ray-based solution which can separate magnesium from aluminum in products such as Zorba and Twitch.

[TOMRA 5S Advanced](#)

the only platform truly designed for hygienic operation, with toolless cleaning and sanitization, and food safe contact areas.

NEW OFFICES

[South Africa](#)

New Johannesburg premises will help sorting and recycling businesses recover more value from waste.

[USA](#)

New Charlotte location to serve as waste and metals recycling solutions base for customers in North, Central and South America

[Chile](#)

New premises, with Customer Experience Center and Regional Training Hub, will strengthen the customer support provided across Latin America by TOMRA Food, Compac, and BBC Technologies

PARTNER PROJECTS

[Soda Stream and TOMRA Reverse Vending](#)

The reverse vending machines will enable SodaStream customers to easily return their empty carbonating CO₂ gas cylinders at SodaStream retailers.

[Holy Grail 2.0](#)

New dimension by using digital water marks on packages: Holy Grail, led by Procter & Gamble and supported by the Ellen MacArthur Foundation, invited stakeholders and partners to a showcase (2019) held at TOMRA Recycling's facilities, followed by first movers Henkel and Netto in Germany (pilot phase)

[World Business Council for Sustainable Development \(WBCSD\)](#)

TOMRA Food, a global provider of sensors, equipment and digital solutions for the food supply chain, joined over 200 forward-thinking companies as the newest project member of the World Business Council for Sustainable Development (WBCSD).

MISCELLANEOUS

[TOMRA Insight](#) (link is for the MINING Division – in addition, this is an offering for RECYCLING and FOOD Divisions)

A cloud-based data platform which enables sorting machine users to improve operational efficiencies, is being rolled out to more industries and now available for mining applications.

[TOMRA XRT Technology recovers 1,758 carat diamond](#) (from 2019)

Recovered by TOMRA XRT sensor technology commissioned by Lucara Diamond Corp at its Karowe Mine in Botswana.
